

Freestanding Mount Datasheet

Fig. 1 - Freestanding mount shown with Pod Point solo unit mounted on it.

E* Hole for earthing the freestanding mount

Fig. 2 - Schematic of free standing mount including dimensions

The Freestanding Mount allows installation of Pod Point Solo charge points to be installed in locations where wall mounting is not suitable. There are options for one or two Solo units, and for J1772 / Type 2 gun storage.

Compatibility:

The Pod Point Freestanding Mount is compatible with Pod Point Solo Charge units.

Single or double charge point options:

The Freestanding Mount is available to mount either one or two charge points. Where two charge points are needed, two Solo charge points are mounted back-to-back.

J1772 gun storage:

The Freestanding Mount is compatible with J1772 / Type 2 compatible holsters, for easy storage of the J1772 / Type 2 gun when not in use.

Wiring duct:

Electrical supply cable for the charge points is easily and neatly fed through the base of the unit and up through the core of the stand.

Installation:

The mount is surface mounted using four fix points at the base.
